JOHN LOTT IS ENDORSED FOR STATE SENATOR IN HANCOCK.

To the Republicans of the 10th Senatorial District of Kentucky:
We, members of the Republican County Committee and the Republican voters of Hancock County, unite in asking you to support Mr. John Y. B. Lott of our county, for the Republican nomination for State Senator from this district. Mr. Lott is an active and earnest Republican, who has worked faithfully for the success of the party in every campaign that has been waged in this county since he reached

his majority, and aside from his merits as a party man, he is well equipped for Legislative work and would make the district a safe and valuable representative in the upper house of the next general assembly.

However, this address is intended to especially impress upon the Republicans of this district the importance of recognizing Hancock County's claims to the Senatorship for the ensuing term. The Democrats very fittingly did this, and as the Democratic nomi-

nee is in Hancock county, as a matter of party policy we believe the Republican nominee should be from our county also. Hancock county has not presented the district with a candidate, in either party, since Hon. D. R. Murray was elected in 1876, and the belief has long been prevalent that Meade and Breckenridge counties should recognize our modesty and gracefully pass the toga over to us for this term, as it is the first time that we have asked for it in thirty years. With due regards and respect to the other worthy Republicans from the other counties who are seeking the nomination, and without any disparagement to their claims, we most earnestly ask the support of the Republicans of Meade and Breckenridge counties for Mr. Lott, and promise them that if he is nominated and we are thus put on equal footing with the

Democrats in Hancock county with their slogan that "this is Hancock County's time," silenced, we will roll up a larger majority for him in November than we gave the hero of San Juan in the Republican tidal wave last November, which was a record-breaker, and with a normal Republican vote in the other counties, which we will confidently expect, there will be no question about Mr. Lott's election.

THE QUESTION OF GREAT IMPORT.

Tobacco Growers Of Breckenridge County To Decide Saturday On Warehouse Plan— Hancock Is Against Pooling.

On investigation it has been learned that the consensus of opinion among the organized tobacco growers of Breckenridge county is that tobacco should be held at home for better prices, and not in a warehouse, if by any means possible, and by far the larger part of them are determined to do this. Which warehouse plan is best for those who feel that they need help, and it seems that their number is small, is now the all-important question which must be decided soon by the leaders of the organized tobacco growers and must be acted upon. This is the principal object of the delegate convention of the local unions of the American Society of Equity in Breckenridge county which will be held at Hardinsburg at 10 o'clock next Saturday morning. The committee appointed by the joint convention of tobacco growers of Breckenridge and Hancock counties, which met here on March 18, to get a warehouse financed in this city, have not finished their work yet, partly because, at the meeting here last Saturday, it was reported by delegates that some local unions do not want help for any of their members, and partly because the committee and delegates want to know the outcome of the meeting at Hardinsburg before proceeding further. The tobacco growers of Hancock county as a body to themselves, are opposed to any pooling plan, as was shown by the action taken at a delegate convention at Hawesville Saturday, when a proposition to pool tobacco on a warehouse plan similar to

that in vogue in Owensboro was voted down, and a resolution passed to hold it at home.

No doubt several warehouse plans will be submitted at the meeting at Hardinsburg next Saturday and the best adopted. C. M. Robinson, of Daviess county, is expected to be present and explain the Daviess county warehouse plan. The program for the occasion, brief and important, is as follows:

Rehandling, redrying and pricing tobacco on the farm.—Lon Jarboe.

How can we best secure a reduction of tobacco acreage in Breckenridge county and its importance.—G. S. Wilson.

How can we complete the organization in Breckenridge county.—E. B. Oglesby.

Relation of farmer and merchant.—W. S. Ball, Joseph Teaff.

Concerning the meeting next Saturday, G. S. Wilson, president of the county union, A. S. of E., in a letter to E. B. Oglesby, says: "Come to the April meeting prepared for business." This is advice which can not be heeded too well by any delegate or officer of the A. S. of E.

Mr. Wilson also writes—and we would publish the letter in full if we could spare the space here—as follows: "I have been in conference with the representative of the Louisville Tobacco Warehouse Co., and he tells me that he thinks this county may be financed along the lines of the same plan that is in operation in Daviess county, and I am convinced, from the trend of his conversation that they are more than anxious to do it."
